PROFILE

Hello, my name is Trevor Glass and I am Front End Developer with a strong to desire to continue growing my knowledge of the backend. I entered the development world through The Iron Yard and have been working as a developer for Sideline Sports ever since.

As a former professional hockey player, I have been able to develop a strong work ethic as well as valuable team skills that has helped my growth in my new field of work.

EXPERIENCE

Front End Developer, Sideline Sports, Charleston SC

Responsible for the entire front end of a sports application that uses web-views to integrate with a wide variety of sports teams native mobile applications. Tasks include improving the UI, creating various layouts to accommodate the many different mobile devices, fluid CSS animations, connecting with and managing the data passed down from the backend. Additional projects include creating a web hooks generator as well as a desktop application with Electron.

Field Operations Manager, Tundra Oilfield Services, Drayton Valley AB

Overseeing the operations of 20+ locations while managing and working with a wide variety of third party companies. Responsible for field production of oil and gas wells. Monitoring production and running diagnostics on well performance. Maintaining flow lines. Maintaining down hole pump efficiency. Check pressures and flow readings. Compute and record well test data.

General Laborer, Quick Cut Concrete Cutting, Calgary AB

Responsible for digging window wells, cutting and removal of concrete, and installation of windows. Experience with power tools such as concrete saws, jacks, and hammer drills.

Bartender, Metropolitan Grill, Calgary AB

Responsible for keeping everything running efficiently, setup at the beginning of the night and clean up at the end
